

Junior Slam Events Under COVID-19

Dundas Valley Golf and Country Club

Logistics

The facilities at Dundas Valley will be organized into 3 primary areas, the lounge/viewing area, the ice surface and the ballroom.

New floor markers will direct traffic around the club as well as on the ice surface. (directional arrows, wait here and stand here markers).

Ice Surface

Dundas Valley is normally a 5 sheet curling venue. For the current season they are only installing 4 sheets of ice to allow for additional distancing between sheets.

Participants will not enter the ice shed area till the ice tech(s) have left the surface. Entry to the ice surface will be via the Sheet 5 door. Exit via the Sheet 1 door.

Markings will be placed on ice surface indicating where players must stand during opposition throw.

Scoreboards will be replaced by a white board, but otherwise follow the same process as outlined in this document.

Equipment and Personal Belongings

The Bertram lounge will be used as a staging area to help manage traffic to the ice surface.

Bathrooms

The washrooms associated with the viewing area are available before, during and after the game. Washrooms in the ice shed are available during the game.

Cleaning Schedule

Touch points, including washrooms will be cleaned before each draw.

Sanitization Stations

Hand sanitizer will be available at both ends of each active sheet. Please sanitize before and after using any measurement device (stopwatch or measuring stick). Sanitizing stations will also be available behind the glass for coaches and convenors.
