

# Junior Slam Events Under COVID-19

## Kitchener-Waterloo Granite Club

### Logistics

The facilities at KW Granite will be organized into 3 primary areas, the lounge/viewing area including the bar, the ice surface and the dining room area alongside sheet 1. Junior Slams Series events will not be making use of the dining room area.

Entrance to the club will be via the side door in the west facing parking lot. This door will be signed. Everyone entering through this door will be screened before being allowed into the building.

### Ice Surface

KW Granite is a 6-sheet facility with significant side-board on both side of the ice surface as well as a walkway in the middle of the club between sheets 3 and 4. For Junior Slam Series events we will have games only on sheet 1, sheet 3, sheet 4 and sheet 6. Sheets 2 & 5 will remain empty to provide additional distancing between the games on the adjacent sheets.

Entering and exiting the ice surface will use BOTH doors, teams with games on sheet 4 or 6 will use the far door in the viewing lounge with the team on sheet 4 entering the ice first. Teams on sheets 1 or 3 will use bar/lounge door with the team on sheet 3 entering first. The games on sheets 1 and 6 will start at the scoreboard end of the ice (playing back to the glass). The games on sheets 3 & 4 will start at the glass end of the ice.

### Equipment and Personal Belongings

Please enter the club "ready to play" except for curling shoes. Equipment may be placed along the back wall of the viewing area approximately behind the sheet you are playing on. Remember to keep 6 ft of distance between yourself and other teams when accessing your equipment.

### Washrooms

The washrooms associated with the viewing area are available before, during and after the game.

### Cleaning Schedule

Touch points, including washrooms will be cleaned before each draw.

### Sanitization Stations

Hand sanitizer will be available at both ends of each active sheet. Please sanitize before and after using any measurement device (stopwatch or measuring stick). Sanitizer will also be available at sheets 2 and 5 behind the glass
